

Global Compensation Plan

UNITED STATES

Get paid to help others lose weight and get healthy. The Xyngular Compensation Plan offers four different ways to earn with daily and monthly bonuses. Partner with Xyngular and start earning today!

Compensation Definitions

- **Product Volume (PV):** The volume of products purchased and sold by a Partner, or purchased online by the Partner's retail customers, in one calendar month.
- **Commissionable Volume (CV):** The volume assigned to each product purchased or sold which is used to calculate commissions. CV values vary by country.
- **Active:** In order to receive all bonuses under the Compensation Plan, the Partner must be active, which is defined as having 120 PV on your account each month.
- **Inactive:** Three calendar months of generating less than 30 PV. Once considered inactive, a Partner's downline will compress to the next active upline. The Partner will also be moved to the bottom of the Xyngular line.
- **Dynamic Compression:** If a Xyngular Partner does not generate at least 30 PV within one calendar month, their downline volume will compress up one level.
- **Qualified Volume (QV):** Monthly volume generated from a Partner sales organization, which is used to qualify for rank and sales pools. A maximum of 60% of the required volume for a title can be counted from any single leg in up to seven qualified levels.

Retail Sales

Retail sales allow you to receive retail profits in two ways: First, you can purchase the product at wholesale and sell it at retail and second, you can refer your Customers to Xyngular Corporate where they can purchase the product at retail and Xyngular remits the difference between the retail price and the wholesale to you in your daily commission check. The second option eliminates the need to stock or deliver any products.

All dollar amounts are shown in USD and CV 1 is based on US market values. Please see page 2 of this document for applicable conversion rates by country.

Example:	
Wholesale Price	\$150.00
Retail Price	\$195.00
Retail Profit	\$45.00

International Conversion Rates

The Xyngular Compensation Plan is calculated in U.S. dollars and converted to individual market currency. If your country is not listed below, it is assumed to be equal to the U.S. Dollar at a rate of 1:1.
